Katja Sladitschek wants to make the world a better place – for everyone. As a scientist at Bayer, Katja knows she is doing just that. Searching for solutions and never giving up. That is the passion that unites all of us at Bayer. We call it the Bayer Spirit. If you feel it, too, then it is high time we had a chance to talk about a career at Bayer.

Inhouse Consultant (m / f)

Your tasks The Business Consulting business unit of Bayer Business Services GmbH provides inhouse consulting services for the Bayer Group. Business Consulting carries out projects worldwide for Bayer AG and its subgroups and service companies in the areas of strategy (e.g. implementation of strategies, strategic analyses), organization (e.g. organizational design, integration and the hive-down of businesses) and performance optimization at all stages in the value creation chain (e.g. optimization of production, KPI systems). You will quickly be given responsibility within such consulting projects and will soon be working independently on specific assignments. You will have direct contact to customers and other consultants – in Germany or abroad, depending on the project – and will receive a good insight into various areas of the Bayer Group. You will acquire the necessary consulting tools and methodology through systematic personnel development. In addition you will have an opportunity to shape the momentum of a growing inhouse consulting organization. Your assignments will be an excellent springboard for a subsequent career in line functions in the Bayer Group.

Your profile You have a very good university degree in economics, science or engineering. Ideally, you have a further qualification (e.g. a PhD or MBA) and/or experience of working abroad. Initial professional experience gained through vocational training, internships or working while at university is essential. In any case, you must be able to demonstrate your enthusiasm for business administration issues, the industries covered by the Bayer Group and the consultancy business. Other central requirements are excellent analytical skills, initiative, persuasiveness, a strong team spirit, good communication skills and an interest in ongoing personal development in a stimulating working environment. You must speak fluent English and be prepared to accept international assignments.

Your application If you are interested in the above position, please apply online, quoting box number 0000011582 and attaching the relevant documents. Please also indicate your salary expectations and the earliest possible date on which you could take up employment under:
